6-DE-FC-63/104
PC/104 <—> ISA Bus Interface via Flat Cable

EMBEDDED-PC PC/104 MODULES
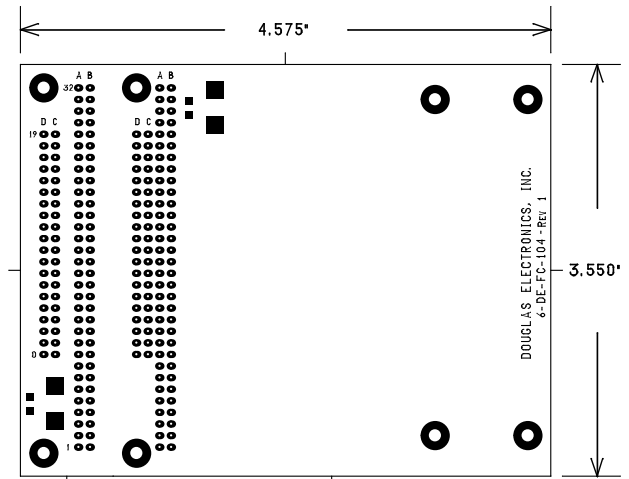

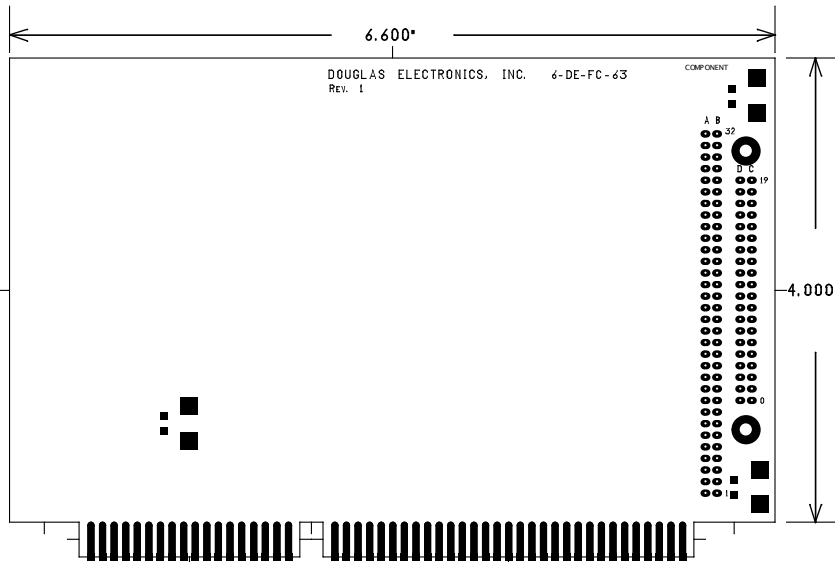

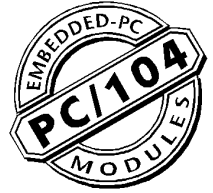

The 6-DE-FC-63/104 board pair allows supporting a PC/104 stack – via flat cable from an ISA bus. It is designed to allow the PC/104 stack to be on the back, outside of a standard ISA box.

Standard cable length is 2.5". If you would like a different cable length, indicate that by -xx" at the end of the part number (xx is in inches). For example, 6-DE-FC-63/104-4.5" would specify a 4 1/2" cable.
