

DOUGLAS ELECTRONICS INC.

6-DE-265/104RS PC/104*Plus* <--> Two PCI Board Interface

The 6-DE-265/104RS board is identical to the 6-DE-65/104RS (W-06) board except that this board provides two PCI slots. The slots are behind the PC/104 stack. The board may be placed low in the stack so that the height of the PCI board is not all added to the height of the total assembly. The two PCI slots a 0 and 1.
